

LOWDEN CARRIES STATE OVER WOOD

ILLINOIS GOVERNOR IS CHOICE OF ELECTORS FOR THE PRESIDENCY

COOK COUNTY GOES TO WOOD BY 25,000

Downstate Vote of Lowden Offsets Loss of Cook County—Showing of Senator Johnson in Chicago Surprising—Unofficial Figures Give State Executive Lead of 64,574 Over Wood With Few Precincts Missing

BULLETIN
CHICAGO, April 14.—2810 precincts out of 3242 in Illinois outside of Cook county give:
Lowden: Men 126,235; women 18,403; total 244,638.
Wood: Men 47,154; women 5,377; total 52,531.

BULLETIN
CHICAGO, April 14.—With Cook county, including Chicago complete, and only 472 scattered precincts downstate missing, the returns at 1 o'clock this morning gave:
Lowden: Men 189,667; women 23,436; total 222,103.
Wood: Men 125,774; women 23,527; total 149,301.
Senator Johnson's vote in Cook county was: Men 35,516; women 5,365; total 40,881.

BULLETIN
CHICAGO, April 14.—Governor Frank O. Lowden of Illinois yesterday received the endorsements of Illinois for the Republican presidential nomination on unofficial returns, with only a few precincts missing, in the presidential preference primary.

The figures gave Lowden a plurality of 64,574 over Major General Leonard Wood, the only other candidate whose name appeared on the ticket.

Senator Hiram Johnson of California, whose name was written in by many voters especially in Cook county, polled a large vote. In Cook county he received 40,881 votes, of which 5,365 were cast by women.

General Wood carried Cook county by 27,443 but this lead was overcome by Governor Lowden's downstate vote. Wood carried Chicago by 25,593.

Twenty-seven district delegates to the Republican national convention declared for Governor Lowden were elected along with 17 who indicated no preference before filing. One of the 17 in Cook county recently announced that he would vote for Senator Johnson at the national convention.

With only 430 scattering precincts missing out of 5,690 in the state, including Chicago, the returns showed:

Lowden: en. 190,480; women, 22,502. Total, 222,982.
Wood: Men, 124,665; women, 23,742. Total, 158,408.

The vote for Johnson outside of Cook county was not heavy and was not tabulated tonight.

There was no contest in the Democratic primary tonight, but the names of more than half a dozen Democrats were written on the ballots in scattering returns.

Hoover's name appeared in some of the Republican ballots. Governor Lowden and General Wood were the only candidates who made speaking campaigns in Illinois.

Women cast a courtesy vote in many counties and in some places the election clerks failed to separate men and women votes. The women's vote, however, was so comparatively light as not to affect the result, and it was divided in much the same ratio as the male vote. The vote received up to 10 o'clock in the districts where Lowden delegates were contesting with delegates who signified that they had no preference showed the Lowden men leading with one exception. In the tenth district Cool (no preference) looked a certain winner, having a vote of 17,072, while Noble, a Lowden man, led the other two Lowden men in this district with a vote of 9,614.

This vote is taken from 244 precincts out of 288.

Complaints of frauds from intimidation of voters to marked ballots kept the police and election commissioners' officers busy throughout the day.

In voting place an unidentified election worker was shot in a quarrel. The wounded man was spirited away before the police arrived. Seven shots were fired during the clash.

Adolph Muus an election judge and Charles Lemark an election worker were kidnapped by several unidentified men in an automobile. All the ballots in the

precincts were taken and the polling was not opened until 8 o'clock when a fresh supply was obtained.

Police were unable to find the missing judge and worker before the close of the polls. Mayor Thompson gained full control of the Republican county organization for the next four years thru the election of ward committeemen having his backing.

The Thompson candidates opposed by the contending faction led by Attorney General Edward J. Brundage and former Governor Charles S. Deneen, won in all but one ward, the 19th, where a Deneen adherent was elected. Attorney General Brundage was defeated in the twenty-third ward by 48 votes.

The Democratic committeemen were elected on the harmony agreement formulated by the Roger Sullivan organization.

The Democratic committeemen were elected on the harmony agreement formulated by the Roger Sullivan organization.

The new Republican county committee will meet to organize within thirty days under the law. It will elect the Cook County delegates to the state convention which in turn elects the eight delegates at large. It also will formulate the Republican party platform and name the organization slate for the fall elections in Cook county.

Incomplete returns indicated that at least three of four municipal bond issues supported by Mayor Thompson, totalling \$34,500,000 were defeated. The vote of the women played an important part in the defeat, voting two to one against the bonds. The bond issues included \$15,000,000 for street improvements and \$5,000,000 for municipal convention hall.

MacChesney Issues Statement.
Nathan W. MacChesney, general Leonard Wood's Illinois campaign manager tonight issued the following statement:

"Early returns indicate a sweeping victory for Leonard Wood in Chicago and Cook county, where the national Republican convention will be held and a surprisingly large vote throughout the state where the Lowden strength was greatest.

"When it is considered that Leonard Wood had no organization and little newspaper support either in Chicago or downstate, the showing he has made is very satisfactory indeed."

BOARD APPOINTED TO INVESTIGATE RAIL TROUBLES

Contains Nine Members Appointed by President Wilson

HEADQUARTERS IN CHICAGO

WASHINGTON, April 13.—The railroad labor board was appointed today by President Wilson.

The members are:

Representing the public:

George W. Hanger, Washington, D. C.; Henry Hunt, Cincinnati; R. M. Barton, Tennessee.

Representing the railroads:

Horace Baker, J. H. Elliott and William L. Park.

Representing the employees:

Albert Phillips, O. O. Wharten and James J. Forrester.

The board will be authorized to meet in Washington at once to take up the grievances of the railroad employees now on strike.

The nominations went to the senate at noon today and prompt action by that body is expected.

Under the transportation act the railroad labor board is the court of last resort in disputes between the roads and their employees. Its first work after considering the present strike will be to take up the whole railroad wage question, which has been pending for nearly a year.

The board is to establish permanent headquarters at Chicago and its members will devote all of their time to the work. They will receive salaries of \$10,000 a year, each.

Mr. Hunt, one of the public representatives is appointed for one year. He is a former mayor of Cincinnati and a former member of the Ohio house of representatives. During the war he was a captain in the national army. Since 1915 he had been a member of the board of trustees of Cincinnati Southern railway, a city owned utility.

Mr. Hanger, another representative of the public, is named assistant commissioner of the United States board of mediation and conciliation, and as a member of that body has had considerable experience in handling labor disputes.

Judge Barton, the third member, is a former judge of the Tennessee court of appeals, and is appointed for three years.

Horace Baker, who is appointed to represent the railroad executives for a three year term is a former general manager of the Cincinnati, New Orleans and Texas Pacific railroad.

J. H. Elliott of Texas, is appointed for two years. He formerly was general manager of the Texas and Pacific railroad and subsequently was a colonel in the transportation corps of the American expeditionary forces.

Mr. Park is vice president of the Chicago Great Western railroad and is appointed for one year.

Mr. Phillips, is vice president of the Brotherhood of Locomotive Firemen and Engineers. He is appointed for three years.

Mr. Wharten, whose home is in Missouri, is an official of the Railway Employees department of the American Federation of Labor and a member of the board of railway wages and working conditions of the United States Railroad administration. His term is for two years.

Mr. Forrester is president of the Brotherhood of Railway Steamfitters, Freight Handlers, Express and Station Employees. His term is for one year.

1,000 IRISH MAIDENS ARRIVE IN U. S.

New York, April 13.—More than 1,000 girls today inaugurated what is expected to be a great influx of immigrants from Ireland. The girls, most of whom arrived on the Steamer Baltic went to the homes of friends or relatives in this city and Rev. Anthony Grossan of the home for Irish immigrant girls said their arrival would help relieve the shortage of domestic servants. Immigration authorities said that many Irish girls were anxious to come to the United States but that hitherto it had been difficult for them to obtain passports.

WILL NAME NEW CHAIRMAN OF COMMISSION THIS WEEK

New York, April 13.—Appointment of a new chairman for the National Baseball commission will be announced some time this week, Ban Johnson, president of the American League, declared here tonight.

Mr. Johnson told a brief conference with John Heydler, president of the National League here today and said he would confer with him again within a day or two.

GOVERNMENT'S COURSE IN RAILWAY STRIKE IS NOT YET PERFECTED

Evidence Shows I. W. W. Have Been Instrumental in Promoting Crisis

WASHINGTON, April 13.—Evidence of the activity of the I. W. W. toward inciting and maintaining the unauthorized railway strike continues to accumulate at the department of justice and officials admitted tonight that they saw signs of an attempt to expand the rail strike into one phase of a world revolution.

Reports from field agents of the department were not as yet complete enough to permit determination of the government's course in dealing with the situation. Attorney General Palmer said no announcement as to the government's plans was to be expected tomorrow.

President Wilson today issued a call for his cabinet to meet tomorrow morning. It will be the first session of Mr. Wilson's official advisers since he was taken ill and the strike situation was understood to have prompted the calling of the cabinet.

The president also sent to the senate today the nominations of the nine men representing employers, employees and the public whom he has selected to compose the labor board provided under the transportation act to deal with railway labor disputes. The men selected were:

Representing the public:

George W. Hanger, Washington; Henry Hunt, Cincinnati; R. M. Barton, Tennessee.

Representing the railroad corporations:

Horace Baker, J. H. Eliot and William Park.

Representing the employees:

Albert Phillips, A. O. Wharten and James J. Forrester.

The nominations were immediately referred to the interstate commerce committee which is expected to take action on them tomorrow.

The board will be called by the president without delay and was expected to meet in Washington where existing government machinery for the handling of wage matters is at its disposal and would permit to get into action promptly to deal with the strike situation.

Mr. Palmer, when he goes to the cabinet meeting tomorrow, will have available reports from his agents at strike centers known to deal specifically with the relation of the Industrial Workers of the World to the strike movement. He will be able to show to the cabinet the activity of the I. W. W. in connection with the strike.

Improvement in the strike in Northern and Central California and in Oregon was announced today by railroads. In Southern California striking switchmen refused to return to work.

A freight train of 45 cars left Sparks, Nev., today, the first since the strike was called last Friday.

Because of a lack of freight cars to move coal, 4,000 coal miners in Carbon county, Utah, were forced out of employment today. The mines will not be operated until the strike is ended, the officers said.

The department moved further today in the direction of prosecution of strike leaders by requesting executives of the Pennsylvania and New York Central railroads to furnish it with the names of all men on strike and to designate the men who apparently were directing it.

In discussing this action Mr. Palmer explained that conditions were not the same on all roads and added that "the influences behind the strike must be ascertained."

Propaganda of I. W. W. origin calling upon all railroad workers to join in asserting their power was brought to a close today when the nine operators presented the last of their data for the purpose of refuting statistics submitted by the miners, showing their earnings were not responsible for the high price of coal to the public.

When the sub-committee appointed to negotiate the new contract adjourned tonight it was understood the docks were practically clear to bring to the front for discussion tomorrow and final action the real issues involved in the controversy.

DOCTOR RELEASED FROM MURDER CHARGE

Markesan, Wis., April 13.—Dr. J. A. Freudenburg, accused of the murder of his mother-in-law Mrs. Nettie Duffies, was dismissed today by Court Commissioner H. A. Price, at the request of District Attorney M. J. Paul, who has been investigating the woman's death.

At the time of Dr. Freudenburg's arrest it was claimed Mrs. Duffies had died as the result of infection of mustard gas, a poison.

It was understood that similar requests might be sent to other railroad officials later, altho this action also awaited determination of the government policy.

More than 50 percent of the switch engines in the Chicago yards were in operation today the railroads announced tonight.

"The strike situation in Chicago continues to show further improvement," the statement said. "Several of the roads removed all restrictions on account of deliveries of freight while others gradually are reopening on additional locomotive equipment."

RAILROAD STRIKE IMPROVES IN THE WESTERN STATES

Strikers in Several Cities are Back on Their Jobs

DENIED BY INSURGENTS

Chicago, April 13.—Reports from rail centers in central and far western states tonight indicated a general improvement in strike conditions.

Although leaders of the insurgent switchmen and yardmen strenuously denied that serious defections had occurred in their ranks, railroad heads and officers of the brotherhoods fighting the unauthorized walkout declared the strike in western territory gradually dying out.

Strikers in a half dozen cities and towns returned to work today, railroad men at other points voted not to join the walkout and embargoes were lifted by several railroads. Several railroads in the Chicago terminal district reported conditions were almost normal.

Livestock receipts today were 236 cars and 10,000 packing-house workers returned to duty.

At Ludington, Mich., 25 switchmen in the Pere Marquette yards reported for duty today. Striking switchmen at Hannibal, Mo., returned to work today and all railroad men who joined the walkout at Bloomington, Ill., decided to end the strike tomorrow. In the far west, 96 Northern Pacific employees voted not to join the walkout or affiliate with the outlaw union.

Four railroads entering St. Louis today modified freight embargoes and railroad officers expressed the belief that the strike "virtually has collapsed."

Railroad officers in Kansas City reported work in the yards was one-fifth of normal, with 71 locomotives in operation. Seven railroads reported yards clear of freight.

A charge of violation of the new syndicalism law of Kansas was filed against E. G. Stewart, a Union Pacific machinist, of Kansas City, Kan. It was alleged that Stewart had urged shop workers to strike in sympathy with the switchmen.

Improvement in the strike in Northern and Central California and in Oregon was announced today by railroads. In Southern California striking switchmen refused to return to work.

A freight train of 45 cars left Sparks, Nev., today, the first since the strike was called last Friday.

GEN. WOOD ABANDONS HIS CAMPAIGN TO RESUME WORK

Declares Present Strike of Rail Workers Demands His Going Back to Chicago

BOSTON, April 13.—Major General Leonard Wood today cancelled the leave of absence which he obtained to make a campaign for the republican nomination for president, and said he would leave later in the day for Chicago to resume his duties as commanding general of the central department. He stated that his action was due to railroad strike conditions.

General Wood made the announcement at a breakfast tendered him at the Boston City club. He said:

"The situation of growing seriousness in the country is such that I feel it my duty to give up my leave and to return to my post of command in Chicago. The situation is not one which allows personal considerations to enter into the matter in the least."

It was the intention of General Wood to speak in several eastern states within the next week. He cancelled all of these engagements. The general now is on a two months leave which was granted him by the war department March 20. He will leave for Chicago at 4:45 p. m.

Chicago, April 13.—General Leonard Wood's campaign for the presidential nomination will not be affected by his return to army duties here, his campaign managers announced this morning. The general will make such short speaking tours as he can without interfering with his duties at central department headquarters.

Army officers here have been watching the strike developments, closely for several days. Colonel Humphreys, chief of staff, left Monday on a tour of the eastern section of the department, in case of government interference in the railroad strike, the men who policed Gary during the steel strike are again available for duty.

OFFICERS WILL NOT BE BENEFITED

WASHINGTON, April 13.—(By the Associated Press)—Commissioned officers in the military or naval service during the war will not benefit under soldier relief legislation now being drafted, it was learned today.

The tentative agreement reached by a house ways and means subcommittee also excludes peonages, shipyard workers who were in the army or navy but who received civilian wages and former service men who had their salaries protected by their employers while in the service.

Final agreement on the rate of compensation to other service men and women is expected to be reached this week and the bill will be finally presented to the house which will be a complete measure carrying provisions for home building aid, extension of vocational training and priority in land settlement. Those not desiring to take advantage of these provisions will receive adjusted compensation at the rate of \$1 a day.

Means of raising necessary revenues have not been decided upon but Republican members of the committee are understood to favor the imposition of a flat tax not exceeding 1 per cent on all sales,

The public is not very much interested in any proposed congressional investigation of the present walk out of switchmen. Too many such investigations have been seen in the past. It usually takes them weeks to get well under way and the resulting benefits are of a negligible kind.

One thing about this wet, cold spring is that farm labor will be in more active demand. There has been no real shortage here according to the records in the county agent's office, and an acute shortage is not looked for now. In some counties in Illinois it is said that farm workers are demanding \$100 a month and board and Morgan county farmers are counting themselves happy that no such condition has obtained or been even threatened here.

Mr. Stoddard of Minonk, a graduate of Illinois college, and a farmer, has made a contribution of \$5,000 toward the new endowment fund of his alma mater. This generous bequest has again inspired President Rammelkamp and his associates to believe that some Morgan county farmer who also believed in the college will make a like bequest.

A Jacksonville financial man commenting on the downward tendency of Liberty bonds, predicted that the price of \$75 would be reached. The high rate of in-

terest he counts as one of the most potent reasons for the down market. Then after great quantities of the bonds have been dumped on the market the pendulum will swing the other way, with strong chances for quotations at par or above.

Whether or not this prediction is true, it is certain that the bonds will be worth 100 cents on the dollar when they come due, for the whole strength of the U. S. government is behind them.

NOT STRONG FOR MILITARY TRAINING.

The more talk there is about military training the more apparent is the opposition in the rank and file. It's really surprising to find the number of former service men who thing military training unnecessary and who have no hesitation in declaring themselves opposed to any presidential candidate with military leaning.

The cash bonus of \$1 a day for ex-service men is said to be favored by a subcommittee of the committee on ways and means. While the American Legion favors some plan of this kind, along with others, it is likely that the measure which will secure the strongest support will be one making it possible for the ex-soldiers to acquire lands or to borrow money for the purchase of homes at a low rate of interest.

In some cases the cash bonus would be the most permanently helpful but in most instances some other expression of appreciation on the part of the people thru the government would effect the most permanent good.

THE VALUE OF MISTAKES.

Dr. Frank Crane may not have made a conspicuous success when he was actively engaged in the

ministry, but he certainly preaches to large audiences nowadays through the medium of the American Magazine and other publications of national circulation. He preaches sermons in most readable form. He puts fine thoughts into language, simple but picturesque, and his style is one which attracts and holds the attention of men and women.

One of the finest things about Mr. Crane is his unfailing optimism. He constantly preaches that it is the present and future that men should consider, instead of concerning themselves so much about the past. He believes that beneficial, but that as a general retrospection may occasionally be rule those people who accomplish things and live in a workman way are the people who profit by their mistakes.

"What's the use of talking about a poor investment you have made or about an alleged bit of bad luck? The thing to do is to dismiss these mistakes, except as they make for better and more successful living." It's a fine bit of philosophy and every one is better off who adopts it.

RECOGNIZING THE STRENGTH OF THE CHURCH

Those Americans who are outside the church and have not paid much attention to those holding membership cannot but be impressed with the names of men prominent in public life who today are giving their earnest support to the Interchurch world movement.

A double page announcement which recently appeared in the Saturday Evening Post had endorsements of the movement from former Secretary of State Robert Lansing, Charles Schaub and a number of government officials and other men who are prominent in public attention.

These men are of no greater personal worth than others who occupy humbler positions but the fact that they testify publicly to their belief in Christianity and the church helps wonderfully in bringing the church into the public position that it properly occupies.

(Some years since a lady, set down for a paper about early architecture, for her club asked for some pointers on that subject.

It is always a matter of interest to know who built certain houses, or other buildings, and when they were erected.

Log House.
These sketches have already contained accounts of some of the log cabins in which our settlers lived, and references have also been made to other later houses.

Illinois College
Had one of the first and earliest brick buildings, and still retains the first public edifice of Jacksonville. It is one half of what is now known as "Beecher Hall," and it was begun in 1829, when Jacksonville was a four year old. The building was enough completed, Jan. 4, 1830, for one room to be partly fit for use, and, in it, in that day, President Sturtevant, organized the first classes of the first College in the state of Illinois. Some time later the other half of the building was put up. The original building had a round gable at each end of it; and there were dormitories in the third story; the sleeping rooms being cubicles on the east and west sides of the central halls; something like the relation of staterooms to the cabins of our Western steamboats. How warm these places were in winter, or how cool in summer can be guessed at. Fireplaces or stoves in the central halls furnished heating power. These halls had windows in one end. The stairway from below came up in the passage way central to the north and south rooms.

These rooms would hardly satisfy students now, but Men were developed in them.

The First Brick Store
Of the town was erected by John P. Wilkinson, in the twenties, and now stands after various changes, at the Southeast corner of East State street and the Square. Immediately south of it was a large two story frame building, where Gen. Murray McConnell once lived. It stood for years; Mathers and Wadsworth occupied it afterwards, as a hardware store. The Wilkinson "brick" is that now occupied by Mr. Herman.

PLEASANT EVENT AT WINCHESTER HOME
Mrs. R. M. Riggs Entertains in Honor of Guest From Colorado—Other Winchester News of Interest.
Winchester, April 13.—Mrs. R. M. Riggs entertained a small company of ladies Tuesday evening in honor of Mrs. Thomas Riggs of Colorado Springs, Colo. Cards were enjoyed during the evening and before the guests departed, delicious refreshments were served.
Mrs. Newton Moore and son Hugh of Bluffs were Winchester visitors Tuesday.
Frank Metzger of Denver, Colo., and Mrs. Thomas Riggs of Colorado Springs are guests at the home of Mr. Metzger's mother and also at the home of Mrs. R. M. Riggs. Mrs. Thomas Riggs is a bride of recent days and is in Winchester to visit various relatives.
Miss Dorothy Hains further returned Tuesday from a delightful

Gov. Duncan's

First residence in the west end of town was a three room house, with an entry which had a window in it. This cottage was ready for occupancy in just four weeks from the time the building of it was begun. It was the first frame house here. Not in town, for the village had not then grown that far west. After the affectation of the day, this residence was called "Elm Grove," owing to the clump of elm trees in which it stood. This title was afterwards transferred to the present Duncan house, which the D. A. R. are taking over now. In the fanciful style of the early days this large house was referred to as "The Seat" of Gov. Duncan.

The cottage above referred to was erected right after Gen. and Mrs. Duncan had come here to stay permanently; having left Washington City, August 1, 1830. Each room had a large open fire place, which added to its comfort and cheerfulness in winter. It was in truth "wedded lovers' first home." But the "latchstring" hung out for many a traveller. They had plenty of wild game to eat, for the man of the house could go out, before breakfast, and kill enough flying or running creatures to last for several days. Wild cats and wolves prowled around outside. Iced cakes set outside had the sachecharine covering licked off by wolves, which, generously left the cake part for human consumption. Indians also came—not to the outside alone, but entering the house, sometimes, and eating all they could get. This was a paradise then, for there were snakes, illimitable nuts and wild fruits, in "Duncan's Grove." Among these natural good things were haws, cherries and mulberries, gooseberries, strawberries, paw paws and wild grapes. "The woods in the spring, with the red bud and apple blossoms, were like fairy land, and in the fall the trees hung with the bitter-sweet and wild grapes loaded with fruit."
Above all, in this home of a D. A. R. and a hero of 1812, of a New York City lady and a Kentucky gentleman, love reigned, and the childrens voices made music on the air.

What is a Chiropractic Adjustment?

Some folks who first thought that Chiropractic was everything except a wonderful, new health method, have gained peculiar impressions of what a Chiropractic Adjustment really is.

An adjustment is primarily given with only the Chiropractor's two hands. How he does it, why he does it, what part of the spine he does it to, are all part of his Science. The expert knowledge is acquired only after years of intense study and practice.

CHIROPRACTIC
THE BETTER WAY TO HEALTH

After analyzing the spine and finding out the defects that impede nerve energy and result in disease, the Chiropractor adjusts the movable bones in the spine back to their proper, normal positions. The cause is removed; the pressure on the nerves is relieved and normal function is resumed. With complete nerve energy restored, the natural forces of the body build up the weak and diseased organs. Health results.

is in full accord with the laws of man's being. No drugs or surgery are used. Chiropractic (KI-RO-PRAK-TIC) is being endorsed by authorities everywhere from the scientific standpoint, because it is right. Its marvelous record of accomplishment recommends it to all who are not up to the mark in health and efficiency. Give Chiropractic a trial.

Put Avicol in the drinking water.

Most people lose half of every hatch and seem to expect it. Chick cholera or white diarrhea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause.

An Avicol tablet placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thacker, R. F. D. 3, St. Paris, O., writes: "I had 90 chicks and they all died but 32. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhea, chick cholera, and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers or you can send 25c or 50c today for a package by mail postpaid. Burrell-Dugger Co., 688 Columbia Bldg., Indianapolis, Ind.

Plainwell, Mich.—"I had such severe pains in my back and head that I could hardly stand on my feet before my baby came. I could do just a little work and then had to sit down. I took doctor's medicine without relief and my mother advised me to try Lydia E. Pinkham's Compound. The first bottle helped me so much that I got more and now I have a son eight months old, the picture of health. I have also found that Vegetable Compound relieves pain at monthly periods. I tell all my friends who are suffering what it has done for me."

—Mrs. LILLIE DOUGLAS, 218 Plainwell Street, Plainwell, Michigan.

Young women who suffer as Mrs. Douglas did should not hesitate to give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, as the evidence that is constantly being published proves beyond question that this grand old remedy has relieved more suffering women than any other medicine.

LOWDEN ROLLED UP BIG VOTE TUESDAY IN MORGAN COUNTY

(Continued from Page One.)
torney Robinson was John J. Reeve.

Judge Samuel outlined the rights of the defendants and said he wished them to have ample opportunity to secure counsel if they so desired. They determined to send for J. Marshall Miller and he arrived at the court house shortly afterward.

After a brief conference with his clients, Mr. Miller came before the court and stated that they were ready to count the ballots but that they did not wish to do so in the presence of Mr. Vasconcellos, who they had no objection to the presence of J. A. Scott, another challenger. Mr. Dye on behalf of himself and Mr. DeFreitas made a brief statement. He said that they had been ready and willing to count the ballots but that Mr. Vasconcellos had refused to leave the room. They contended that because of his activity during the day in electioneering for one of the candidates that he had thus disqualified himself as a challenger and had no right to be present.

Amenable to Court Ruling.

Judge Samuel explained the law, stating that if Mr. Vasconcellos had credentials as a challenger that he had a perfect right to be present and watch the canvassing of the vote. He said that if Mr. Vasconcellos had violated any rule with reference to electioneering that that was not a concern of the judges at this time, and afforded no reason whatever why they should refuse or delay in the canvassing of the returns. He said in brief that if the two judges were willing to return immediately to the polling place and canvass the ballots that they proceeded to do so; that otherwise he would impose upon them a fine for contempt of court. The men signified their willingness to immediately canvass the vote and the court ordered them discharged from the custody of the sheriff. However, Deputy Sheriff Andrews went to the voting booth to remain during the canvass.

Thirty Ballots Rejected.

After several hours' wrangling at the polling place the returns were finally made to the county clerk's office showing that Walter DeShara received 50 votes, Richard L. Dye 35 votes, and that 30 votes had been rejected. It was the statement that 9 of these ballots were thrown out on the ground that Mr. DeShara's name was improperly spelled, and that 21 were rejected because a cross was not in the square at the left of the name, after it had been written on the ballot.

This action was taken by the judges notwithstanding the recently published opinion of Attorney General Brundage to the effect that a ballot is regularly cast whether or not a cross is put in the square. The attorney general's statement on this point reads as follows:

Attorney General's Ruling.

"It is my opinion that Section 46 in the present Primary Election act means that if the primary elector desires to vote for a person whose name is printed on the ballot of his party, he must do so by marking a cross in the square opposite the name of such person; that the primary elector who wishes to vote for a person whose name is not printed on the ballot of his party, must write the name of such person at the proper place on the ballot and prefix the cross in a square, except that in voting for precinct committeeman by writing in the name, it is not necessary to make the cross in a square opposite such name, but it is lawful to do

so; and that the use of stickers or pasters in voting for any office is unlawful."

After all, the events in No. 7 and in several other districts where the committee membership contests were sharp afforded the only really interesting events of the day.

On Democratic Ticket.

Scattering votes from 23 precincts give the following vote for president on the Democratic ticket:

W. J. Bryan 48
W. G. McAdoo 28
Woodrow Wilson 17
Herbert Hoover 13
E. G. Edwards 5
Champ Clark 4
Robert Lansing 2
Johnson 2
Palmer 1

BASEBALL SEASON OPENS IN BOTH MAJOR LEAGUES TODAY

One of the Best Pennant Contests in History of Organizations Predicted

Major league baseball teams open the season in National and American circuit cities today, weather permitting. In the initial games of what is expected to be one of the best pennant contests in the history of the professional organizations. Forecasts indicate fair and colder weather, with high winds for a majority of the baseball parks, but this will hardly check the enthusiasm of baseball fans, judging from reports of advance reservation sales at all the cities involved.

According to the schedules of the two leagues, there will be opening games in two eastern and two western cities of each circuit today, and the visiting teams will, in turn, open the season at their own ball parks on April 22.

In the National League, Pittsburgh will play at St. Louis; Chicago at Cincinnati; Philadelphia at Brooklyn and Boston at New York.

The American League program calls for New York at Philadelphia; Washington at Boston; St. Louis at Cleveland, and Detroit at Chicago.

In every case special arrangements have been made to celebrate the beginning of another baseball season in which parades of the players, flag raising, band concerts, and throwing out of the first ball by prominent state or city officials will form a prominent part.

Analysis of the strength of the various teams on the eve of the pennant races appears to indicate that there will be some changes in the standing of the clubs at the close of first month of the races as compared with that of a year ago. It would appear from the form displayed in spring practice that they can be grouped generally at this time as follows:

National League: The Brooklyn, Chicago and Philadelphia appear to be stronger than last season, while New York, Pittsburgh and St. Louis are about equal in playing strength to the form shown early in 1919. Boston and Cincinnati are not judged to be as strong as was the case last spring.

American League: Philadelphia, Washington, New York and Cleveland are all expected to play a more impressive game this season. St. Louis, Chicago and Detroit are classed as equal to their power of 12 months ago, while Boston falls below the form of 1919.

Daytona, Fla., April 12.—Gene Walker, of Birmingham, broke the world's record for motorcycles on the beach here today, covering one mile in 31.72 seconds.

RAILROAD STRIKE IMPROVES IN THE WESTERN STATES

(Continued from Page One.)
tives, passenger and suburban business is normal.

Reports from outside points indicate that men are continuing to return to their posts.

Return to Work.

Bay City, Mich., April 13.—Switchmen and switch tenders numbering about 150 called off their strike here tonight and some of the night crews immediately returned to the yards. The full force will report tomorrow morning. The decision was reached following word from Washington that the railroad wage board had been appointed and would immediately take up the switchmen's demands.

200 Refuse to Work.

Albany, N. Y., April 13.—Nearly 200 switchmen and yard employees of the New York Central railroad at the West Albany yards refused to go to work at 11 o'clock tonight, the hour for the night shift to begin work. Five thousand freight cars, said to be largely loaded with foodstuffs, were understood to be in the yards.

Vote to Return.

Washington, April 13.—Striking freight yards and at the passenger terminal here decided tonight to return to work at midnight, leaving their demands to the railway labor board for adjustment.

Raid Meeting Rail Workers.

New Orleans, La., April 13.—Forest C. Pendleton, department of justice agent here, at the head of a squad of department operators, raided a hall in which a meeting of two hundred members of the local yardmen's association was being held tonight, and arrested six of the leaders on federal warrants, charging them with interfering with the United States mails.

Industries Forced to Close.

Scranton, Pa., April 13.—More than 15,000 mine workers have been idle the past three days as a result of the strike on the Lackawanna railroad, and this number will be swelled considerably tomorrow. Three Pennsylvania Coal company collieries were compelled to close today for want of cars, and it was said by company officials that others would shut down tomorrow. The same is true of the Hillside Coal & Iron company mines.

At present there are more than 5,000 loaded cars standing on sidings in this city and vicinity.

Passenger Service Suspended.

Pittsburgh, Pa., April 13.—Passenger service of the Pittsburgh & Lake Erie railway, which was suspended today by a strike of trainmen, will be resumed early tomorrow morning, according to an official statement by G. H. Sines, vice president of the Brotherhood of Railway Trainmen.

Car Repairers Quit.

Columbus, O., April 13.—Between 75 and 100 car repairers on the Big Four railroad went on strike tonight in sympathy with the switchmen. Loyal railroad employees said this strike would prevent inspection of any cars.

New York Workers Out.

New York, April 13.—Striking railroad men of Greater New York meeting in Jersey City tonight, unanimously refused to work, after hearing the report of their executive committee, which had conferred during the day with Mayor Hague, of Jersey City, and representatives of the "Big Four" railroad brotherhoods.

M. B. Keplinger of Franklin made a trip to the city yesterday. Mrs. M. G. Ryan of Alton is a visitor with friends in this vicinity.

Deaths

BAKER

Mrs. Lolah M. Baker died at Our Saviour's hospital at 8 o'clock Tuesday night, after a brief illness. The deceased had not been strong for an extended period and Monday underwent a serious surgical operation. Her condition grew constantly worse until the end came. Mrs. Baker, before her marriage, was Miss Garrette of Dawson, Sangamon county, and she is survived by her husband, her mother and grand parents. Mr. Baker is pharmacist in the east side store of Coover & Shreve, and Mrs. Baker, during her several months' residence in Jacksonville, has also been employed there.

Interment will be made at Mechanicsburg. Notice of the funeral will be given later.

With the Sick

E. K. Duncan of Ashland became a patient at Passavant hospital yesterday.

Francis Admire of Carrollton, fourteen months old, underwent an operation at Passavant hospital yesterday.

Miss Bertha Antle of Franklin was operated on Tuesday at Passavant hospital for appendicitis.

The Value of Disinterested Testimony

At a recent college reunion in New Haven, a classmate, Henry P. Warren, headmaster for many years of the Albany, N. Y. Academy, told me the following incident, which he thought would interest me on account of my knowledge of the connection with Illinois College. It took place in the Taft Hotel, one of the largest and most beautiful hotels in the country, situated diagonally opposite the business corner of the old Yale campus and, naturally, the rendezvous of graduates attending class reunions.

Sitting in the foyer, reading his paper, his attention was attracted by hearing the words, "Illinois College," spoken by one of a couple of nearby talkers. Warren, himself, knew little, if anything of the college, but its association with a classmate made him curious and, picking up his ears, he overheard a conversation the substance of which he reported to me as follows:

"Do you know," said one of the gentlemen, "that that little institution out there in the West is one of the best of all the hundreds of colleges in the country? It has made little noise in the world, but it has had a remarkable record, and its influence on the history of its locality, indeed, on the entire country, is one that might well be coveted by many of our large universities. The spirit of its founders put a stamp on the state, and through its facilities and its graduates its importance for our national educational policy has been immense."

"That's interesting," said the speaker's companion; "where is that college? I don't think I ever heard of it?"

Then the first speaker went on to tell how he had become acquainted with and interested in "Illinois College," having had in his New York office a young man who was a graduate, full of enthusiastic pride in his alma mater,

and often alluding to the debt he owed her.

"And, by the way," he went on; "Yale College herself, pointing over to the campus, is in a way responsible for that little institution. She sent out the men who set up that child of hers in the West in pioneer days."

Then Warren heard him enumerating some of the things that Illinois College had done. It had been the first to set up a high standard of education in the widely extended and rapidly growing areas of population, where no college existed beyond Western Reserve, Ohio, to as far as the setting sun. She had been sending out a slowly increasing stream of high grade teachers and Christian preachers into Illinois and neighboring states. She was, from the first, a fearless advocate of freedom in a region where pro-slavery opinions were constantly trying to get a foothold and pervert the politics of Illinois. Indeed, the speaker understood that Mr. Lincoln, himself, had largely attributed to the influence of the college and its graduates the loyalty of Illinois to the principles of liberty. She had gathered about her feet in that little town a collection of families—professors' families, graduates' families, families of Easterners attracted by her educational facilities, till, dwelling along their big elm-shaded streets, they seemed more like one of the traditional New England communities than a pioneer prairie town.

"I tell you," he concluded, "the men who raised that beacon and kept its light burning in dark days, deserved well of this country for their patriotism, and the men who still support the college, in appreciation of all she has done and all she continues to do in the service of state and nation, are worthy any backing we of the wealthier east can give them!"

COLLEGE SPECIAL MADE ANOTHER TRIP

Students Parade Down Town District in Behalf of the Endowment Fund—Are Taking Great Interest in Campaign.

The Illinois College Special made another journey Tuesday morning. When Illinois College students want something they go after it en masse. Whether a football victory or a library building is needed, the students drag out the "I. C." Special sign and back it up with numbers and noise. Every going concern has a Special, and Illinois just now is interested in endowment hence the entire student membership got in line in the big booster parade at ten o'clock Tuesday.

Behind the sign just mentioned marched the band. Then came the big Endowmentometer, a clock-like indicator of the progress of the campaign. It was placarded with a ten-foot sign, "Give Me a Boost" and was supported by two Senior men, with four Senior girls manning the ropes that steadied the top. The rest of the senior class followed, with balloons marked \$500,000, which amount is this year's objective in the campaign.

The Juniors followed, bearing signs large and small demanding attention to the cause of a new library. "Wanted—A Home for Books," was their central idea, and a careful of homeless ones backed up the demand. A coffin bearing the remains of "our last librarian, who could not live on hope" was brought into service.

The sophomores were preceded by a large sign "Interest, on \$100,000 will Feed 3 Prof's. Families for 100,000 years," surely a conservative estimate for these days. Smaller signs, some taken from the recent Relief Campaign, were carried also, and a well-fed Sophomore was fitted out in workman's jumpers and cap, and esconced in the tonneau of a big car, with speckled and slender professor trailing on foot.

The Freshmen carried various signs emphasizing the Greater Jacksonville idea. The movement toward greater co-operation between city and college has been gaining ground among the students this year, and Illinois students, and Illinois College as an institution, both will do their part toward a better city, if he city is prepared to reciprocate. "More Money, More Students, More Students, More Business," was the substance of one placard emphasizing one aspect of the college as an investment.

The parade passed down State Street, around the square, down East State to the Women's College, and back to the Y. M. C. A. The band played both at stops and on the march, and yells were indulged in. Some were painted the red globes of the cluster lights on the square in imitation of the balloons of the parade, with college monograms and the figure \$500,000. Several other landmarks will have to be washed to remove similar reminders of the campaign, and the town will be none the worse for the water.

THE THIEF.

The Thief, which is a truly first class road show, remember it is not a moving picture show, comes to the Grand theater on Thursday evening and the management of the Grand is to be congratulated upon getting this attraction.

However, this play will not be advertised as extensively as it ought to on account of the paper being lost in transit and owing to the railroad strike the new paper will not be here in time to give it the proper advertising.

People who have seen this attraction in Chicago and St. Louis

and other large cities are loud in its praise and speak in the most glowing terms of Miss Zinta Graf, the leading lady, as well as Clifford Devereux, the leading man. These people have never appeared in Jacksonville before, but those who know them promise the theater goes a treat.

The seat sale will open this morning.

There is a Difference in the Way the Liberty Rides and Drives

Liberty Touring Car

The difference of the Liberty's riding and driving it not to be wondered at when one learns the steadfast quality of the car, which becomes more and more apparent as the miles roll up.

To this unmistakable worth, and also to the high order of designing displayed even in the very minor details, may be attributed qualities so divergent as the unusual comfort which the Liberty affords, and the uniform reasonableness in the cost of operation and upkeep. The car is one of the moderate weight in proportion to its size, amply powered, with a responsiveness and flexibility that are remarkable.

It is replete with features that have literally commanded the enthusiasm of Liberty owners. The upholstery is of genuine leather in the French pleated type, fitted over unexcelled special cushion springs. Plainly-marked side curtains are carried in a very accessible compartment back of the front seat. The steering wheel is of black walnut, properly corrugated around the inner surface. There are special top holders, horsehair carpets in each compartment, a rear curtain light of beveled plate glass set in a heavily nicked rim, and an equipment that is considered exceptionally complete.

HENRY HARDY KILLED BY POLICE OFFICER

Is Killed After Threatening Officers with Shotgun—Officers Had Warrant for Arrest of Dorothy Dodge.

John McGinnis, a police officer, shot and instantly killed Henry Hardy about 2:35 o'clock Tuesday afternoon, after he had threatened Officers McGinnis and Baker with a shotgun. The shooting occurred at the Hardy residence, 846 West Railroad street.

The officers had a warrant for the arrest of Dorothy Dodge, who lives at the Hardy home. When they went to the house and knocked on the door it was opened by the woman, and the officers found themselves facing Hardy, who leveled a shotgun in their faces.

The officers commanded Hardy to drop the gun and he failed to do so. He kept up a constant stream of abuse and threats and when it was apparent that he intended to shoot, Officer McGinnis in order to save himself and Officer Baker from death or probably serious injury, fired. The shot struck Hardy in the abdomen, causing instant death.

Were Looking for Missing Girl
Tuesday afternoon Chief of Police Kiloran received a message from Hannibal asking him to locate Goldie Schermerhorn, aged 13 years, who had disappeared from her home in that city. The message stated that the girl was believed to be at the home of Dorothy Dodge.

Chief Kiloran detailed Officer Baker on the case. Baker went to a house at the corner of Sheridan and Sherman streets, where the Dodge woman had formerly lived. He found that she had moved to 846 West Railroad street.

Officer Baker went to that number. He knocked on the front door and received no response. He then went to the back door and knocked, but no one answered. The officer then returned to the front of the house. He saw a woman peering at him through the curtains of the front room.

When the woman saw that the officer had seen her she opened the front door when he knocked. Baker asked her if the Schermerhorn girl was there. The officer said that the Dodge woman immediately began to abuse him. She finally told the officer if he believed the girl was there to come in and see for himself.

Baker said that when he took hold of the screen door to comply with the woman's demand to see a revolver from under the pillow and told him she would shoot if he attempted to come in. Baker then returned to the police station and reported the matter to Chief Kiloran.

Secured Arrest Warrant
Chief Kiloran called up State Attorney Robinson, who advised him to secure a warrant for the arrest of the Dodge woman. A warrant was sworn out before Justice Dyer and Officers Baker and McGinnis returned to the Hardy home.

The officers stepped on the porch and knocked on the door, which was promptly opened. They found themselves looking into the muzzle of a shotgun, held by Hardy. The officers said Hardy applied a vile epithet to them and threatened to shoot.

According to the officers, they commanded him to drop the shotgun and not resist them in the carrying out of their duty. Hardy, becoming more and more violent, raised the gun, and when it appeared he was about to pull the trigger, McGinnis fired. The charge struck Hardy in the abdomen and he fell, dying almost instantly.

Coroner Is Notified.
Immediately after the shooting the officers notified headquarters and Chief Kiloran, Coroner Rose and other officers went to the scene of the tragedy. The Dodge woman was placed under arrest and taken to the station and is being held until after the inquest.

The body of Hardy was removed to the undertaking parlors of W. W. Gillham. Coroner Rose will empanel a jury and hold an inquest this morning.

After the shooting the officers found three loaded guns in the house. Hardy, who was 65 years of age, was afflicted with palsy. He evidently was laboring under a state of great excitement just before the tragedy occurred.

Mother of Missing Girl Here
Mrs. Schermerhorn, mother of the girl for whom the police were searching and also of Dorothy Dodge, who was staying at the Hardy home, arrived in the city from Hannibal Tuesday evening. The police were unable to locate the missing girl and Mrs. Schermerhorn left at 7 o'clock Tuesday night for Louisiana, Mo., in the hope of locating her.

In conversation with Chief Kiloran Mrs. Schermerhorn indicated that both her daughters had caused her a great deal of trouble and sorrow. The younger for whom she is searching has been an inmate of the reform school in the state of Missouri and seems to be incorrigible.

Chief Kiloran said last night that Hardy had the reputation of being of a dangerous disposition. Some years ago he shot twice at Walter Hart, but failed to hit his man and Hart never made a complaint against him. The cause of this trouble is said to have been information given by Hart to Hardy in an alleged bootlegging case.

Total \$6,686 \$26,068.50

The several canvassing teams reported additional subscriptions of \$6,686 to the Illinois College endowment fund at the noon-day luncheon Tuesday. This amount, with subscriptions already announced, makes a total of \$26,068.50 toward the \$100,000 that Morgan county people are asked to subscribe.

Dr. Remmelkamp added a lot of enthusiasm to the occasion when he announced a subscription of \$5,000 from Reuben Stoddard of Minonk. This generous subscription will, of course, not be counted in the Morgan county total, but will go toward the whole sum of \$500,000 which trustees declare it is necessary to add to the college endowment. Mr. Stoddard is a wealthy farmer who was in the class of 1891.

Four representatives of the student body attended the luncheon, Misses Thiebaud, Shuman, Messrs. Crouch and Best. They, with other students, had part in the parade which attracted so much attention in the business district Tuesday from 11 until 12 o'clock. Mr. Best spoke for the students and gave quite a clear idea of the enthusiasm that dominates the student body.

Dr. Remmelkamp introduced Rev. W. E. Collins to speak, especially because of his association with the college as Y. M. C. A. secretary during the war time. Mr. Collins spoke pointedly of the responsibility that education carries with it. He said that education is really dangerous unless it approves the Christian type of living. The training of the mind without accompanying development of ideals and character is a matter of danger for the individual and for society. So the speaker was glad to remember that Illinois college is a Christian college and that the ideals of its Christian founders have lived all through the years.

A great deal of interest was shown as the team reports were made and it was very evident that the spirit of rivalry in the work will help in increasing the total of subscriptions. The reports for the day are given in detail above. Additional Subscriptions Reported
The following are the friends and former students who subscribed to the Illinois College Fund on Tuesday:

Matrimonial

White-Robinson.

At 8 yesterday morning at the Church of Our Savior Rev. F. F. Forman conducted the ceremony which united for life Donnell White and Miss Lillian Robinson, both of this city.

Miss Margaret Ring most ably rendered the wedding march from Lohengrin and as the notes pealed forth the wedding party approached the altar. The bride was attended by Miss Kathryn Kiloran and the groom was accompanied by his brother, John R. Robinson.

The bride was tastefully costumed in a navy blue, tailored tricotline suit with picture hat to match and Miss Kiloran was also attired in a tricotline, navy blue suit and both looked very attractive.

Immediately after the ceremony the immediate members of the two families repaired to the home of the bride on Beasley avenue, where a sumptuous wedding breakfast was served by the Peacock Inn. In cutting the bride's cake Miss Kiloran got the thimble, George Robinson the button, the groom the dime and Mrs. John R. Robinson, mother of the groom, the ring.

The bride's home was handsomely decorated in a color scheme of pink and white with many handsome and useful presents indicated the esteem in which the young people are held by many friends far and near.

The bride is the only daughter of Mr. and Mrs. H. C. White and is a young lady of many admir-

White Hall Post American Legion Presents Memorial to Nearest Kin of Dead Soldiers—Other White Hall News.

White Hall, April 12.—The White Hall Post of the American Legion carried out formal exercises in the Princess theatre Sunday afternoon in presenting a memorial to the nearest kin of those who gave up their lives in the service in France during the world war. The exercises, opened with an address by Clarence Whiteside, post commander, and this was followed with prayer by Rev. Edgar C. Lucas. There were addresses by Mayor F. N. McLaren and Chaplain Arthur F. Ewert. The presentation of the World War memorials on behalf of France was carried out in the pageant form, the certificates being presented by La France to Columbia, the former being Mademoiselle Suzanne Mayer, a native of France, and the latter represented by Mrs. Paul P. Thompson of Jacksonville. Lieut. C. F. Wenken represented the A. E. F. soldier, Miss Dolly Corsa an Alsatian girl, Lynn Smith a sailor and Carl Dossel a soldier. The honor roll was thrown on the screen and the

exercises concluded with the benediction by Rev. Leo Howard. The honor roll contains the names of James Lyons, Charles W. Martin, Henry Don McCracken, John Moore and Aaron Walker. The names of Francis Grimes, John Fisher and Eddy Ahern had been confused with other localities through the enlistment record, giving White Hall credit for five lives lost in the service when there are eight. The memorials are headed as follows: 'Memorial from France, R. Poincare, President of the French Republic, to the memory of those of the United States of America who died for liberty in the great war.' The exercises were very impressive and largely attended and the proceedings were interspersed with orchestral numbers.

Mrs. Philip Bernes, residing on East Sherman street, fired a 32-calibre revolver into her body at about 4 o'clock Sunday afternoon with suicidal intent. The ball entered over the heart, and there are hopes of her recovery, although today it is being planned to take her to a hospital. She was in her bed room at the time, and the discharge was heard by her son, Harry Pryor, and Mrs. Benjamin Armstrong, both of whom were in the living room adjoining. Dr. W. T. Knox was summoned and her only explanation was made to him that she wanted to get herself out of the way. She had been under the care of a doctor for nearly two years, and it is believed that brooding over the condition of her health prompted the act. Her husband was at his work as kiln burner at the sewer pipe works at the time. Her age was about 55 years. Leo Pryor, another son, resides in St. Louis, and he was promptly summoned.

SCHOOL ELECTION AT
BLUFFS SATURDAY

Members of School Board Elected—Easter Program at M. P. Church Sunday Morning—Other Bluffs Items.

Bluffs, April 12.—Easter exercises were held at the M. P. church at 11 o'clock Sunday morning. The program was of unusual interest, being given entirely by the pupils of the Sunday school and consisted of recitations and songs. At 4 o'clock p. m. the choir had charge of the Vesper service which was very pleasing and beautiful with appropriate readings and songs. A goodly number were in attendance at each service.

The community high school election Saturday resulted in the following being elected for members of the school board: Victor Knoepfel, Bluffs; Henry Rolf, Jr., Oxtell. About 475 votes were polled in Bluffs and Victor Knoepfel led with 440 votes.

Exeter is entitled to a member on the school board and in the next annual election arrangements should be made by the voters of that vicinity to file the petition twenty days before the election with one ticket in the field representing Bluffs, Oxtell, Exeter, Merritt precincts. This could be arranged and that is the proper way to work in harmony and secure justice for all concerned.

Mr. and Mrs. Charles Hildebrand of Griggsville were visitors of the William Hildebrand household Sunday.

Miss Helen Rockwood, Mrs. William Vannier and Mrs. John Collins were Springfield visitors Saturday.

Mrs. J. C. Lewis was a business caller in Meredosia Saturday.

Mr. and Mrs. Harvey Kesterson and children of Clayton spent Saturday and Sunday with his parents, Mr. and Mrs. James Kesterson.

Miss Florence Getz of Peoria is a guest of the William Hartnady household.

Mrs. William Hartnady and Miss Florence Getz attended the funeral of Conductor Clarence Dixon which was held in Quincy Monday. Mr. Dixon had been conductor on the Keokuk branch of the Wabash for a number of years and his death is deeply regretted by his friends here.

FROM MISS NELLE COOK

Wires Information About Walter LaBelle—Says Father Resides in Oklahoma.

Some days ago Chief of Police Kiloran sent a message to Miss Nelle Cook at Ramsey, Ill., relative to the death of Walter LaBelle. It will be remembered that LaBelle died at Passavant hospital where he was taken from the police station where he applied for shelter. The message was returned with the information that Miss Cook refused to accept it. Yesterday Chief Kiloran received a message from Miss Cook from Valparaiso, Ind.

In this message Miss Cook said that LaBelle had an uncle at LaBelle, Mo., and his father was a resident of Oklahoma but did not know in what city he was located. She indicated that she would come to Jacksonville if the remains were still held. The message was sent collect and cost Chief Kiloran \$1.82. He was afraid to wire her again so has written her of the facts and that the remains are buried.

TO BRIDGE THE ILLINOIS
H. H. Werris of Meredosia was in the city yesterday and said there was a plan on foot whereby they hope to get a wagon bridge across the river at their place. They have a novel plan which is to plank the Wabash railroad bridge so that it may be crossed by teams and automobiles. Mr. Werris says the bridge has to have a man there all the time anyway to open it for boats and he could close the gates whenever a train was dangerously near.

Quite a quantity of low lying land west of the river has been reclaimed and the men along that neighborhood are anxious to get access to a nearby market so that the project has much to commend it if it is feasible. The river, which has been quite high is getting down to a normal stage again.

INCREASING PRODUCTION MAKES NECESSARY NASH FACTORY EXPANSION

Increasing demand for products of The Nash Motors Company is reflected in substantial additions to the great plant at Kenosha during the past year. It is in this factory that Nash six cylinder cars and Nash trucks are built, the new plant in Milwaukee, now under construction being planned for the exclusive production of the Nash Four.

An important addition to the factory is found in a building 120x120 which was added to the large foundry. There also has been constructed a foundry warehouse and pattern storage 80 by 100 feet. Other new buildings include a new roller bearing tool room and pattern shop, 100 by 600 feet and an addition to the sheet metal shop measuring 32x236 feet.

Under construction now are a new boiler room 50x50 feet and an addition to the heat-treating department measuring 40x140 feet.

The construction of all these buildings is thoroughly modern and was carried out without interruption to work in the busy Nash shops.

There are in operation in the Nash factory over 1,500 productive machines and over 300 factory maintenance machines; the plant embraces 1,011,332 square feet of floor space and in the power plant which keeps the machinery in operation, 120 tons of coal are used every 24 hours.

Fifty thousand men are on the payroll of The Nash Motors Company.

INTERESTING ITEMS FROM LITERBERRY

Interesting Services at Baptist Church Sunday—Mrs. Durrell Crum a St. Louis Visitor—Other News Notes.

Literberry, April 12.—Rev. W. R. Johnson of Prospect street, Jacksonville, came out to Literberry Sunday morning and brought his family with him; also a very pretty little girl that he introduces as his niece, but we did not learn her name. Mr. Johnson preached in the morning on the beautiful lesson of the resurrection; the readings were from Luke 23 of the mock trial. Mr. Johnson also explained the interchurch world movement to his people; also the denominational work both spiritually and financially. Just after Sunday school there was an Easter program.

Miss Mildred Underbrink went to Jacksonville Saturday to take a lesson in violin music.

Mrs. Durrell Crum took a trip to St. Louis to visit friends Saturday and Sunday.

Mrs. Lillian Danskin of Jacksonville made a pleasant call at Sunshine cottage Friday afternoon in the interests of the D. A. R.'s.

Practical Power Farming

No more is there any argument about Power Farming. It is here to stay but it has been left for the TO-RO to lead the way to motorize the farm.

Why talk about Power Farming if you can only do 50% of your work with Power and have to keep horses to do the balance.

The To-Ro Convertible Power Cultivator fills this gap—making it possible with this wonderful Two in One machine to do all your work. It cultivates corn, potatoes; seeds; harrows; pulls a binder, hay loader, and any other implement; plants your corn, etc.

Then easily converted into a small tractor at low cost—it will do your plowing, hauling, discing, harrowing, mowing, feed grinding, corn shelling and pumping.

Just the small tractor you have been looking for to work your orchards and vineyards.

Its narrow width, light weight and power at the draw-bar makes it ideal for these purposes.

If you own a plow tractor you need a To-Ro Power Cultivator. It will not only do your cultivating at a big saving of labor and time, but will do many jobs on the farm more economically and better than you can do them with your heavy tractor.

If you do not own a tractor then you need a To-Ro with the convertible feature.

We are not offering you a combination or a make-shift; neither are we offering

—The To-Ro Cultivator has been successful in the field.

—First—Because it will do the work it is intended to do.

—Second—By reason of the pivoting drive wheels—enabling the operator to get quick action on the gangs and to guide his machine with ease, in fact, to cultivate better and faster than with horses.

—Third—Because all levers are within easy reach of the operator—simple and effective.

—These are but a few of the many exclusive features of the To-Ro Power Cultivator, as we can tell you but little of this splendid "Two in One" machine in this space. Call in and see us. We will show you.

Where Quality Rules and Service is King!

You are a Stockholder in the greatest business in the world

YOU are going to do an act this month whose influence will carry around the world.

It will seem a simple thing to you—merely making a gift in the Interchurch World Campaign.

But in Church hospitals all over the country sick people will be made happier, for part of your gift will go to them.

In scores of children's homes supported by the Church more children will have a chance.

In China where there is one doctor to every 400,000 people (America has one to every 712) the Church's medical forces will be strengthened and encouraged.

Babies who might have died

In India where a third of the babies die before their second year, the lives of babies will be saved.

Church schools and colleges will share your gift [half of America's 450,000 students in institutions of higher grade are in Church Institutions].

In preachers' homes where preachers' wives have patched and darned and wetted their work with their tears, life will be happier and better. [80% of the preachers now are paid less than \$20 a week.]

These are some of the things your money will do. And this is

What your money will not do

It will not put two Churches where only one should be. The Movement means thirty denominations pledged to prevent duplication and waste.

It will not be spent in useless overhead. At least a million dollars will be saved by the merging of thirty campaigns into one united effort.

Your life will be at work in every land

Whether you are a Church member, or whether you merely contribute, you will put your life to work—through the Church—in every corner of the World. And long after your life is over its influence will survive and serve.

These are the terms in which to think of the Church.

We have thought too long about it in terms of little things. Let us get a picture this month of its world-wide sweep. Let us stop thinking of ourselves as givers of pennies.

We are fellow-workers with Almighty God—stockholders in the greatest business in the world.
